

Speaker: Dr. Patsy Triplett PT, DPT, ATC. Patsy completed her undergraduate training in 2008 at Huntingdon College in Alabama, with a Bachelor degree in Athletic Training. She then completed an undergraduate degree and Master's degree in Biology from Jackson State University in Mississippi, 2011. In 2015, Patsy received her Doctorate of Physical Therapy from the University Of Mississippi Medical Center. Patsy

has been a part of the Results Physiotherapy team since 2016. She began her journey with Results as a staff therapist and worked her way into Clinic Director of multiple clinics. Patsy stepped into the District Occupation Health Coordinator role for the Memphis market, helping her Work Comp Account Executive to further grow business across the market as a whole. Patsy has been highly effective managing Work Comp initiatives/opportunities, and now serves as the Regional Occupational Health Coordinator of Middle Tennessee.

Patsy is extremely passionate about her role as Regional Occupational Health Coordinator, and has dedicated herself to Results and the profession as a whole. She believes that early utilization of physical therapy is an integral part of facilitating return to work for the injured worker, and helps educate and ensure this standard of care throughout Middle Tennessee.
