

SESSION 3 - Mask or No Mask (COVID) Summary

Mask or No Mask is a retrospective review of the COVID-19 Pandemic that asks the question; how do we reduce the transmission of COVID-19 and promote a safe work environment? We will discuss the pandemic and other current events and examine the impact on our physical, mental, emotional, and social aspects of society. We will discuss COVID-19 safety protocols as well as a review of the many changes to policy required to keep pace with the dynamics of the pandemic. We will discuss healthcare, job loss, anxiety, depression, and frustrations associated with remote work, remote education, telemedicine, and quarantine. The participants will have a reasonable understanding of actions taken in the past to apply to future dynamics as they relate to health care and non-healthcare workers occupational exposure to infectious disease, specifically COVID-19.
